Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Claims 2-15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement in the reply filed on 4/6/06.

Applicant's election with traverse of Group I in the reply filed on 4/6/06 is acknowledged. The traversal is on the ground(s) that claims 3, 11, 12, and 13 are generic to claim 1. This is not found persuasive because claim 3 is directed to the embodiment of figure 5 and includes an additional feature (second attenuating means), while claims 11-13 each recite sound generating means which is not generic to claim 1 and does not refer back to the claim.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Dependent claim 16 refers to parent claim 1 which indicates a plurality of audio visual devices, however the language in claim 16 recites "said audio visual device" which is ambiguous and confusing. Furthermore, the phrase "to make operating functional buttons of other devices serve a double purpose" is vague and does to refer back to the apparatus of claim 1.

Claim Rejections - 35 USC § 102

Art Unit: 2615

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 and 16 are rejected under 35 U.S.C. 102(e) as being anticipated by Nicholson et al, US Patent 6,330,337. Nicholson et al teach an automobile entertainment system comprising audio visual devices 10, 11, and 17, front seat speakers 20 and 21, rear seat speakers 22 and 23, headphone jacks 24 and 25 for connection to a headphone, rear seat controller 15 for independently outputting a selected audio signal from one of the audio visual devices, operating means and control means 26 for performing a predetermined operation and sending a control signal to attenuate (actually mute) an input signal to the headphones. Claim 1 is rejected. Regarding claim 16, control means 26 is located on the rear seat controller 15.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dykstra, US Patent 6,690,803; Moyski et al, US Patent 5,185,803; Stafford et al, US Patent 4,754,486.
